3. Registering for DBF Secure E-Mail.....	5
4. Reading Secure Email When Already Registered.....	9

1. Introduction

The Georgia Department of Banking and Finance has implemented a new secure electronic mail system to protect the integrity and confidentiality of information being transmitted through the Internet. To meet improved industry best-practice standards, all confidential email communication you receive from us will now take advantage of Ironport/Cisco's encryption services. Ironport/Cisco's easy-to-use e-messaging protection makes it easy for you to both receive and read all of our encrypted communications - whether you are a Ironport/Cisco customer or not.

The privacy of business communication is important to us and we want to ensure your information stays private.

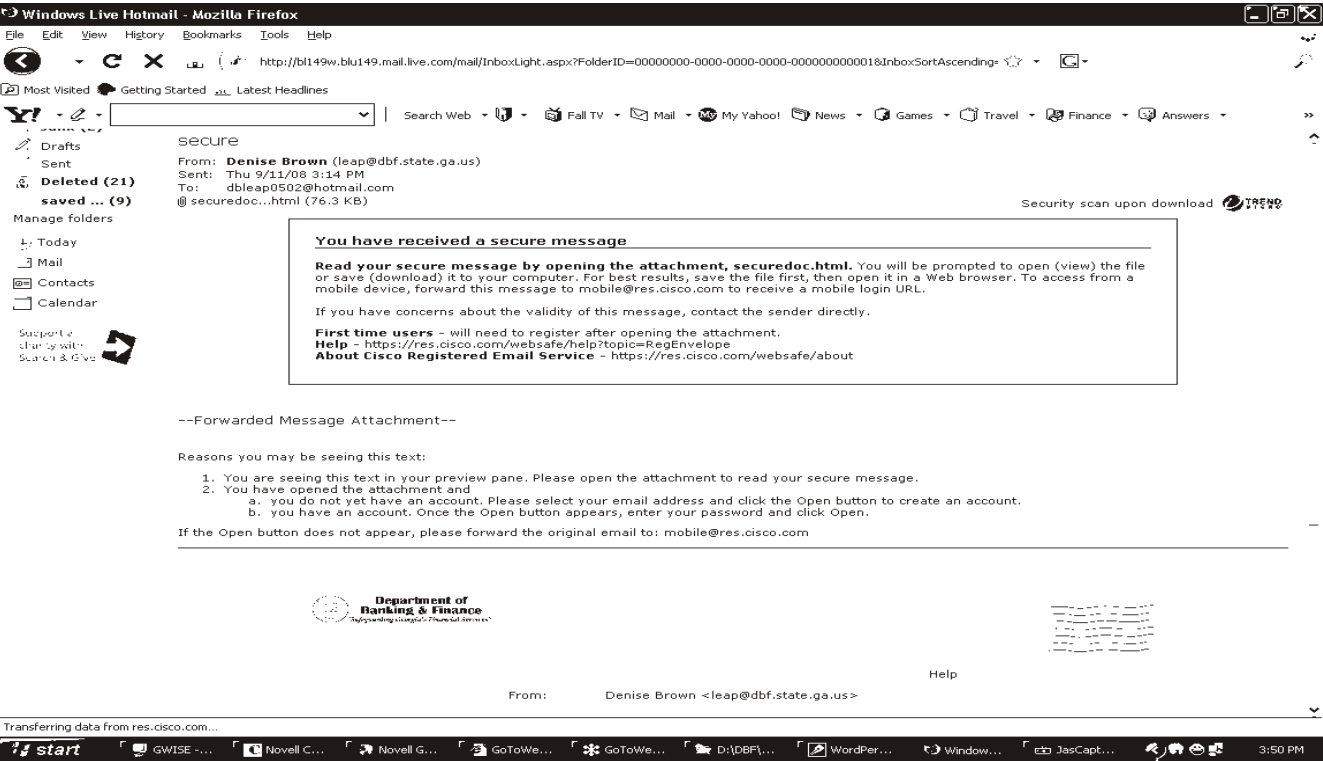

This solution secures and encrypts all email communications when designated by the DBF e-mail user. Any DBF employee can initiate secure e-mail to anyone else with an Internet e-mail address. Recipients of these e-mails can retrieve and reply securely to the messages by doing the following;

1. You will receive an email notification that a secure message is waiting for you at the DBF Secure Message Center web site.
2. This notification will instruct you to go to the message center where you will
 - a. Register an account
 - b. Read the secure email
 - c. Respond to the email

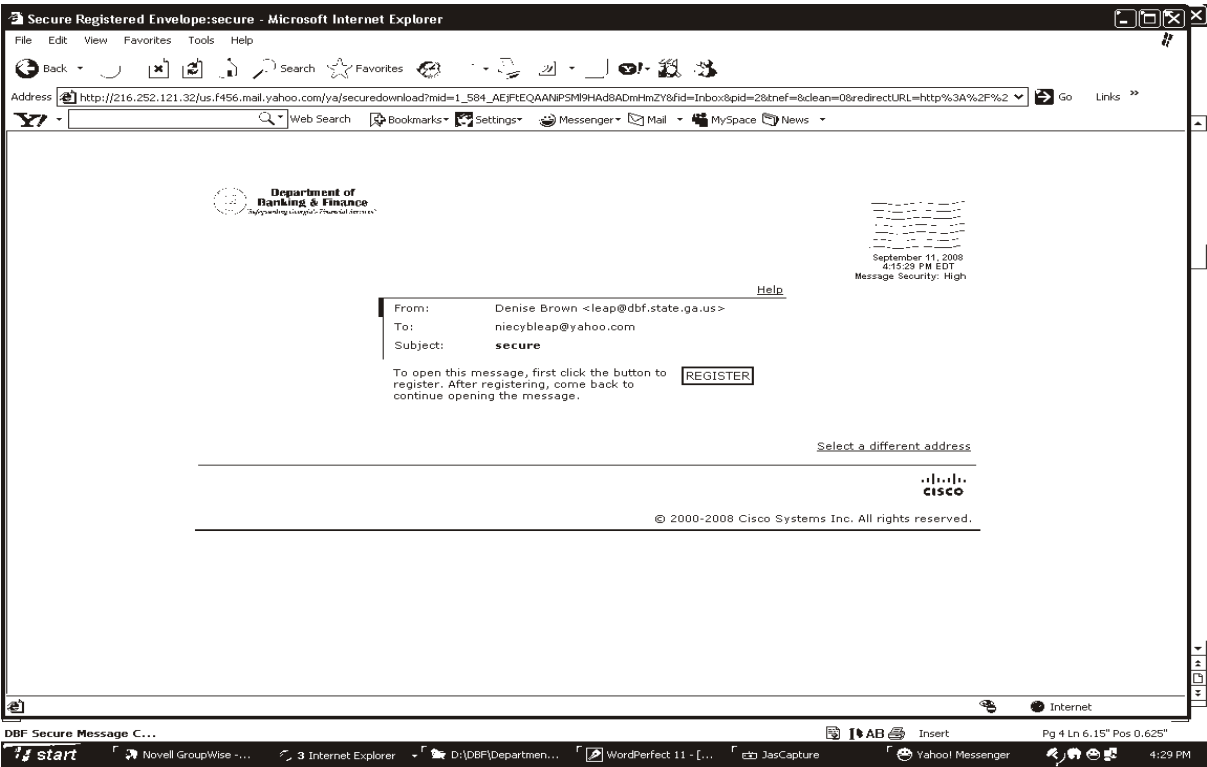

Account registration is a one-time process. The details of this process are described in the following pages.

2. Receiving DBF Secure Messages

Your secure message will look like the message below. Click on the attachment to continue.

If you receive a DBF Secure Message and you have not registered with the service, click the Register button.

3. Registering for DBF Secure E-Mail

New User Registration - Microsoft Internet Explorer

Address  https://res.cisco.com/websafe/register?uuid=e6854b68c6f38e537f0000015436da4c

NEW USER REGISTRATION

* = required field

Enter Personal Information

Email Address: niecybleap@yahoo.com

Language: The language setting will be stored for future login and email notifications.

First Name*:

Last Name*:

Create a Password

Password*: Enter a minimum of 6 characters or numbers. Passwords are case-sensitive. Your password must contain both letters and numbers.

Confirm Password*:

Personal Security Phrase: Enter a short phrase that only you will know. This phrase will appear on message envelopes when you log in. When you see your phrase, you know you are logging in to our secure site.

Select 3 Security Questions

You will be asked these questions in the future if you forget your password.

Confirm Answer 3*:

☒ Remember me on this computer

Complete the registration page and click on register.

After clicking register you will get a message like the one below indicating that you will receive a message at the email address you supplied with instructions on how to activate your account.

Activation

Dear Denise Brown,

Thank you for registering with Cisco Registered Envelope Service. To complete your registration, you must confirm your intent to register and your acceptance of the [Terms of Service](#) by activating your account.

[Click here to activate this account.](#)

You can also activate this account by going to <<https://res.cisco.com/websafe/activate>> and entering this confirmation number: 84b8da19724893537f0000015436da4c

To stop the registration process you can cancel this account.

[Click here to cancel this account.](#)

You can also cancel this account by going to <<https://res.cisco.com/websafe/cancelActivation>> and entering this cancellation number: 84b8da19724893537f0000015436da4c

IMPORTANT

To help keep your personal information safe, Cisco recommends that you never give your CRES password to anyone, including Cisco employees.

Welcome to CRES!

To know more about Cisco Registered Envelope Service, see <https://res.cisco.com/websafe/about>
Terms of Service: <https://res.cisco.com/websafe/termsOfService>
Privacy Policy: <http://www.ironport.com/privacy/>

After clicking the link to activate the account you will see the following;

English ▼

EMAIL ADDRESS CONFIRMED

You have activated the account for niecybleap@yahoo.com. Registration for this email address is now complete. To exit this page, close your browser window. After exiting this page, return to your Registered Envelope and enter your password to open it.

3. Reading Secure Email When Already Registered

Read your secure message by opening the attachment, securedoc.html. You will be prompted to open (view) the file or save (download) it to your computer. For best results, save the file first, then open it in a Web browser. To access from a mobile device, forward this message to mobile@res.cisco.com to receive a mobile login URL.

Enter your password and click on open.
